PROFESSIONAL SUMMARY

Front-End Developer with 3+ years of experience building high-performance, SEO-optimized web applications using React.js, Next.js, and TypeScript. Delivered scalable solutions supporting 10,000+ users, reducing page load time by 40%, and improving organic traffic by 30%. Experienced in AI-driven applications and compliance-driven industrial environments, including oil & gas projects. Focused on performance optimization, clean architecture, and translating complex technical requirements into intuitive user interfaces.

TECHNICAL SKILLS

- **Frontend Technologies:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap
- **State Management:** Redux, RTK Query, React Query
- **Web Performance:** Core Web Vitals (CWV), Lighthouse Optimization, Lazy Loading, Code Splitting
- **Data & Integration:** REST APIs, Real-Time Data Dashboards, SharePoint Integration, KPI Reporting Systems
- **AI & Analytics Exposure:** Computer Vision Dataset Annotation, Roboflow, AI-Assisted Engineering Workflows
- **Tools & Platforms:** Git, GitHub, Figma, Konva.js, Microsoft Copilot, VS Code, Postman, Chrome DevTools, Webpack, NPM/Yarn, Vercel, Netlify
- **Backend Knowledge:** Node.js, Express.js, MongoDB (MEAN Stack Exposure)
- **Domain Exposure:** Oil & Gas, QHSE Systems, Engineering Drawings (P&ID), Compliance Frameworks, NIST RMF

PROFESSIONAL EXPERIENCE

Digital Analyst – Rejlers International Engineering Solutions – Abu Dhabi, UAE (March 2025 - Present)

- Developed React.js dashboards with REST API integration for QHSE, ADRS, and AI analytics systems.
- Built real-time data visualization platforms for compliance monitoring and operational KPI reporting.
- Integrated SharePoint Excel live data into centralized QHSE dashboards for safety and quality tracking.
- Contribute to ADRS (Autonomous Deliverable Review System) for ADNOC, developing UI interfaces for engineering drawing (P&ID) review.
- Create and validate computer vision datasets using Roboflow aligned with oil & gas industry standards.
- Reduced engineering drawing manual review time from 4-6 hours to 3-5 minutes (~90% efficiency improvement).
- Collaborate with engineering, HSE, and project teams to ensure data accuracy and regulatory compliance

Front-End Engineer – Kapreign Pvt Ltd, India (July 2024 – January 2025)

- Developed responsive web applications for travel, wellness, and Ayurvedic tourism using React.js and REST APIs.
- Delivered production-ready UI for UAE and regional clients.
- Optimized frontend solutions for performance, maintainability, and user experience.

React Developer, Maple Tech Space Pvt Ltd, India (August 2023 - April 2024)

- Developed real estate web applications using React.js, TypeScript, and Next.js.
- Built property listing platform with advanced search filters (price, location, property type, bedrooms).
- Optimized website performance to meet Core Web Vitals (CWV v2) standards.
- Developed custom CRM system for lead management and historical tracking.
- Improved Lighthouse performance scores through lazy loading and modular code-splitting.
- Built dynamic marketing websites and landing pages.

Front-End Engineer, Bluehour Technologies Pvt Ltd,India (April 2022 - April 2023)

- Developed interactive UI components using React.js and TypeScript.
- Built canvas-based image editing tool using Konva.js with resize, rotate, and text customization features.
- Integrated AI-powered features including auto-enhancement and intelligent positioning.
- Contributed to development of Admin Dashboard for SaaS platform

Web Developer Intern, Luminar Techno Lab Pvt Ltd,India (December 2021 - April 2022)

- Developed responsive web applications using React and JavaScript
- Built MEAN stack banking application using MongoDB, Express.js, Angular, and Node.js.

KEY PROJECTS

ADRS - Autonomous Engineering Deliverable Review System (ADNOC Project):

- Developed UI for AI-assisted P&ID drawing review.
- Created computer vision datasets for defect detection.
- Achieved approximately 90% reduction in manual review time.

QHSE Dashboard System:

- Built centralized compliance and KPI monitoring dashboard with real-time SharePoint data integration.

Real Estate Platform (Canadian Market)

- Developed Next.js property platform optimized for SEO and Core Web Vitals.
- Integrated CRM functionality and advanced filtering systems.

AI-Based Image Editing Tool:

- Developed canvas-driven editing tool with AI-enhanced automation features.

CERTIFICATION

MEARN Stack Web Development Course - NACTET Certified

EDUCATION

Master of Science in Computer Science, 2019

CCSIT Calicut University, India

Bachelor of Science in Physics, 2017

Sacred Heart college, India
